

Kiosk Solutions

Robust | Power | Precision

Self-Service makes intuitive sense with Senor iSPOS Kiosk Solutions

The robust and versatile Senor iSPOS (intelligent Smart, Point of Service) series can be transformed to the Wall/Ceiling Mount, Countertop or Standalone Kiosk solution for your requirement.

Multiple configurable options of the latest technology combined with a full range of peripherals ensure every touchscreen iSPOS Kiosk is connected from the get-go offering superior performance and reliability.

Construction

The iSPOS Kiosk is always in its element and functions in all demanding conditions.

Operating on fanless and ventless mechanisms, and enclosed in a solid aluminium die-cast casing coated with nanotechnology, the iSPOS Kiosk certified with IP66 rating provides for safeguard against liquid and dust in harsh operating environment.

Offering a ruggedised touchscreen solution constructed for applications indoors and outdoors.

Serviceability

Designed for flexible serviceability at minimal downtime, the iSPOS Kiosk is equipped with removable hard drive for fast system restore and is lightweight to provide for mobility and ease of system replacement if necessary.

The Senor Observer software included is a dedicated diagnostic program that allows for remote monitoring of the operating parameters and health status of the iSPOS Kiosk, aiding as a preventive measure against system error.

The iSPOS Kiosk is built to perform and adheres to the highest standard of durability, safety and product quality that exceed conventional measures.
